SUMMARY

I am a Front-End developer, searching company where I can grow professionally. I have got the basic knowledge of HTML, CSS, JavaScript, and React. Responsible, hard-working, stress-resistant, goal-oriented, sociable, capable of learning. I love my job. I'm constantly interested in learning new technologies in web development.

PROJECT EXPERIENCE

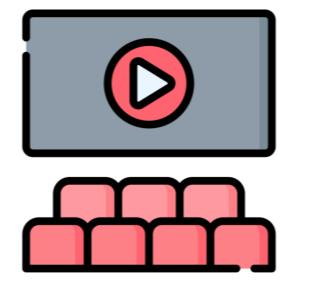

--- Github ---

A website with a responsive layout. Using following technologies HTML, CSS, SASS.

--- Github ---

Ice Cream company site. Neat and tasty design, responsible layout. Using following technologies Parcel, SCSS, JS

--- Github ---
